ZAVI MEDICARE

(We believe in universal health care)

ZAVI MEDICARE is a single use medical devices factory which is located in central part of INDIA i.e., Madhya Pradesh, Jabalpur, we have State of art facilities such as ISO 7(class 10,000) certified clean rooms for Assembly, ISO 8(Class 1,00,000) certified Moulding Area and lab with all dedicated and modern facilities. We have products such as I.V Cannula, Three way stop cock, Spinal Needle, Endotracheal Tube, Extension line and many other prospective products which are in pipeline. We are one of the leading job creators in Mahakoshal region of Madhya Pradesh which is on upward track and increasing on daily basis.

We are ISO 13485:2016 certified unit and our work performance complies with the highest quality standards. All products are manufactured under GMP (Good Manufacturing Process). Every employee follows SOP's which are complied as per international standards.

We at ZAVI MEDICARE ensures that every product which we deliver is best in class because we believe in universal health care.

Production Facility:

ZAVI MEDICARE is equipped with state of art technology on ultra-modern facilities. A high level automated Moulding machines with well trained and technically experienced personnel help in delivering consistent product quality.

Quality Assurance:

ZAVI MEDICARE deliver products conforming to our strict quality standards. The work performance confirms to the highest quality standards and complies with international regulatory requirement, company operating procedures and testing methods. Quality Management system conforms with ISO 13485:2016.

Innovation:

As said by some wise man "INNOVATION NO LONGER REMAINS A CHOICE BUT IT HAS BECOME AN IMPERATIVE"

ZAVI MEDICARE has totally committed its workforce in constant innovation process. We do constant interactions with doctors and try to understand their point of view. We at ZAVI MEDICARE is trying to work with doctors and engineers in common table for betterment of people and make medical devices user friendly and accessible.

ZAVIFLON

IV cannula with port and wings

Sizes : 14G to 26G

ZAVICAN

IV Cannula with wings, without port

Sizes: 14G to 26G

ZAVINEO

IV Cannula without port and with small wings

Sizes : 24G and 26G

COMMON FEATURES:

- Tapered FEP radiopaque catheter for easy insertion with optimal flow rate
- Flexible wings to provide easy and secure insertion
- Manufactured from tested biocompatible materials offering inherent time
- Injection port with non-return silicon valve
- Transparent flashback chamber for easy visual medication

SIZE	COLOR	CATHETER OD (mm)	CATHETER LENGTH (mm)	FLOW RATE (ml/min)
14G	Orange	2.2	45	270
16G	Grey	1.8	45	200
17G	White	1.5	45	125
18G	Green	1.3	45	90
20G	Pink	1.1	32	55
22G	Blue	0.9	25	36
24G	Yellow	0.7	19	18
26G	Violet	0.6	19	13

ZAVIWAY

Three way stop Cock

- For Multiple infusions with 360° rotation
- Rotating male luer and female luer connectors

ZAVIWAY PRO

Three way stop cock Lipid resistance

- For Multiple infusion
- 360° Rotation

ZAVIWAY CLICK

• Three way stop cock lipid resistance with 45° click

ZAVIWAY WITH EXTENSION LINE

Three way stop cock with extension line

- Soft, frosted and kink resistant DEHP free PVC tubing .
- Available with rotating luer lock
- Tube dia : 1 Ø 3mm and 0 Ø 4.1 mm
- Available with rotating Luer lock

COMMON FEATURES

- Transparent Channel
- Arrow Indication for flow direction
- Pressure upto 4.5 bar (65psi)
- Connection meets 6% taper requirement to ensure leakage free fitment.
- Rotating male luer and female luer connectors

Extention Line

Zaviline

High Pressure Extension Line

- Kink resistant PVC tubing
- Priming volume : 0.8 ml per 100 cm
- Pressure up to 55 bar (800 psi)
- Suitable for high pressure monitoring
- Tubing Dia : I Ø 1.5 mm * & O Ø 3.0 mm

PVC Free High Pressure Extension Line (Coiled)

- DEHP Free
- Priming volume : 1.7 ml
- Flexible Kink Resistant PE Tubing
- Tubing Dia : I Ø 1.0 mm * & O Ø 2.0 mm

Low Pressure Extension Line

- Available with or without Clamp
- For Pressure up to 4.5 bar (65 psi)
- Also available with "Y" Injection Port for Intermittent Medication.
- Extension Line Suitable for low pressure monitoring
- Tubing Dia : I Ø 3.0 mm * & O Ø 4.1 mm

COMMON FEATURES

- Tube length : 25, 50, 100, 150 & 200 cm
- Male luer lock at one end & female luer lock at the other end

Spinal Needle

Zavispine

Quincke Point

- The Conical tip imparts superior tactile feedback
- It is suitable for spinal anaesthesia

Pencil Point

- It reduces loss of cerebrospinal fluid and PDPH

COMMON FEATURES

- Sizes: 16 G to 27 G x 3.5" (90 mm) needle length
- Aggressive anesthetic distribution upon injection
- Also available with introducer needle
- Conical tip imparts superior tactile feedback
- High flow rate enables faster Cerebro Spinal Fluid (CSF) flashback

Gauge	Color Coding on Stylet hub	Effective Length of Needle (+1.5/ -2.5 mm)	Outer Diameter (± 0.05 mm)	Tensile strength Minimum (N)
16G	White	90mm	1.60 mm	69 N
17G	Red - Violet	90mm	1.40 mm	69 N
18G	Pink	90mm	1.20 mm	69 N
19G	Cream	90mm	1.10 mm	69 N
20G	Yellow	90mm	0.90 mm	54 N
21G	Deep Green	90mm	0.80 mm	44 N
22G	Black	90mm	0.70 mm	40 N
23G	Deep Blue	90mm	0.60 mm	34 N
24G	Medium Purple	90mm	0.55 mm	34 N
25G	Orange	90mm	0.50 mm	22 N
26G	Brown	90mm	0.45 mm	22 N
27G	Medium Gray	90mm	0.40 mm	22 N

Urine Collection Bags

ZAVIURO - Premium

- Capacity: 2000 ml, Tube length: 90-100 cm
- T-Type Bottom outlet for single hand operation and efficient emptying of the bag
- Available with specially molded handle for easy handling

Uring Collection Bag With T-type Bottom Outlet

- Capacity: 800 & 2000 ml, Tube length: 90-100 cm
- T-Type Bottom outlet for single hand operation and efficient emptying of the bag

Uring Collection Bag With Measured Volume Chamber

- Capacity: 800 & 2000 ml, Tube length: 90-100 cm
- Reservoir Capacity 250 ml, 500 ml
- Urine Collection Bag graduated in ml with measured volume meter for accurate measurement of urine

COMMON FEATURES

- Available with specially molded hanger for easy handling
- With T-Type Bottom outlet and side outlet
- Capacity of Urine Collection bag: 800 ml & 2000 ml
- Inlet tube length: 90 - 100 cm

Endotracheal Tube - Cuffed & Plain

Endotracheal Tube (Cuffed)

- It comes with non-return valve with pilot cuff for easy assessment of the pressure in the main cuff.
- It is provided with soft cuff based on high volume and low pressure at the distal end.

Endotracheal Tube (Plain)

- It is made of special thermo sensitive material readily conforming to anatomical curvatures at the body temperature.

COMMON FEATURES:

- Kink resistant, thin - walled, thermo-sensitive tube, softens at body temperature.
- Made from non-toxic, non-irritant medical grade clear PVC.
- Universal 15 mm connector at the proximal end.
- Radio opaque line and markings provided to facilitate identification of tube position.
- Murphy eye at the distal end for atraumatic intubation and extubation

Endotracheal tube sizes (I.D of the tube in mm)

Cuffed	-	2.5	3.0	3.5	4.0	4.5	5.0	5.5	6.0	6.5	7.0	7.5	8.0	8.5	9.0	9.5	10.0

Foley Catheter

Latex Foley Balloon Catheter 2 Way / 3 Way

- Made from thin and flexible natural latex rubber
- Used for short/long term urine drainage
- Latex sheet coated with silicon elastomer
- Silicon elastomer coated smooth surface for atraumatic catheterization

Two Way

Size in FR	6	8-10	12-14	16-26
Balloon Capacity	3cc	3-5cc	5-15cc	30-50cc

Three Way

Size in FR	16, 18, 20, 22, 24 & 26
Balloon Capacity	30-50 cc
Size in FR	14
Balloon Capacity	15-30 cc

Silicon Foley Balloon Catheter 2 Way / 3 Way

- Made from 100% Silicon
- Used for long term urine drainage
- Symmetrical foley Balloon to ensure upright tip in urinary bladder for proper drainage of urine
- Non-toxic, bio-compatible and extra smooth for maximum patient comfort

Two Way

Size in FR	6	8-10	12-14	16-26
Balloon Capacity	3cc	3-5cc	5-15cc	30-50cc

Three Way

Size in FR	16, 18, 20, 22, 24 & 26
Balloon Capacity	30-50 cc

COMMON FEATURES:

- Two lateral Eyes to prevent the risk of injury and encrustation
- Hard plastic polymer valve for trouble free inflation and deflation of Balloon
- Smooth eye, ultra-thin highly elastic Balloon and hard non-returnable valve
- Color-coded for easy identification of size

Sizes
